Nothing

Nothing

No

Intract with students

No comments

Null

None

Nil

Everything is good

1.To improve industrial visit through world wide,2.To improve advanced technology learning in our campus,3.To improve placement opportunity through world wide

Flow Charts And Mind Map Each Unit Should be taken

1.Need more interaction with students.

No suggestions required to improve,thus the faculty are hard working for the growth of

institutions and as well as students welfare.

Provide Workshops in college and eee department to gain more knowledge and conducting symposium each semester for attracting students

Excellent

..

Preparation Towards the Topic, Best Explanation, Better Understanding

Communication

1. Color coded increased representation of examples. 2. Visualisation of concepts. 3. Increased communication

No More Comments Usually well thought

N/A

Do better in teaching and give the practical knowledge to students and encourage it.

Nil

More interactive with students, giving perfect example, train for the semester exams

Its great

Nope

Teacher should Focus on some students and make them a special teaching to pass the semester exams

Help students to overcome his/her weakness

All is good

To provide more number of facilities, to teach in English, to provide good space for canteen

Everything fine and good, if there is little more support for students it will make more changes in institution

Took special care on average learning students make more opportunities for job in campus

Culturals, auditorium, positive mindset

1.Prioritize placement preparation classes over Academic classes from 5th or 6th semester.
2.Using of projectors. 3. Practice of working in a Team.

1.Mental and emotional support to students (weekly once mentoring session by their mentors but every individual should have only one mentor Till they complete the graduation..) 2. The college was conducting test period everyday morning 1st period which was super cool idea that it should be started again so that they can improve studies in their daily basis.

Concentrate in improvement of student skills/Encourage the students to level up

Nothing to say

Everything is fine but I think it would be helpful to take particular care of students who come from other state

First to solve doubts during or after class

Need more examples while teaching. Need to train us to clear all the papers . Do more work to encourage extra curriculum activities.

no

To conduct more cultural evnts , To motivate and make grls to be a part of basketball and football like other male dominated sports, To hav Have PET classes every week, To Hav One cultural event per sem that is to be organised by the students to promote more leadership qualities.

Please conduct test daily for the students this is my suggestion from my sides

Develop your teaching materials, Assessment skills, Reflect on your practice and micro-teaching.

Syllabus should be completed within the given time.

Can use practical classes to teach the concepts, Could conduct field and industrial visits,Could encourage students to work on groups to improve soft skills

1)Industrial Visit Must avail for us.

I like to attend classes which showcase digital and graphical examples where all the concepts are implemented. So according to my opinion AMS does it perfectly.

To improve the maintain of time

Some times better

Teachers teach using real time examples

Need more practical knowledge

1. Make more internships with good companies, 2. Create more workshops and digital clubs, 3. Support and motive the slow learners to overcome their difficulties and help to find their strengths.

Practical

Teach the concept with real time examples. Give some exercise. finish the syllabus before the exam.

Adopt new technology, vocabulary, technical skills, evaluate performance

Improve more related to placements training

1) Teach Content's using Practical Knowledge 2)

....

1. Need to Improve Sports activities

1. Can be much better in providing extra career knowledge to students

Try to conduct DPT Daily practice test for students in the first period of the class

Please contact to cultures program, sports opportunity,

Good teachers

Still better more interaction with students

Its very good

Should increase the interval timings !

1. Excellent Teaching Staffs 2. Could provide better materials to prepare 3. Communication skills/classes could be improved

Faculties to be friendly, need to change their teaching styles

Virtual class's , discussing periods, short and sweet notes with good examples

Improve Better Teaching Staff.. 🙏

Provision of other references/ usage of visual and graphically expressed content /patience

Should provide study holiday before semester exam

Already Good

Teach practically , regular test

1. Real world examples can be discussed frequently while teaching

Please arrange more placements for all departments

Adapt to new procedures and keep upgrading. Move ahead of time to be in race

good

1. Should use real time examples while teaching 2. should use projector for better understanding

Everything going good

Students must be taken to IVs more often

Teachers can take even more interest in students who are late bloomers rather than constantly encouraging the toppers,

Overall good

Good teaching

Projectors in class

Make various use of the projectors, Use the current modern systems/Os, The Classes should allow devices to make notes to make learning efficient
